The Train Ride rhyming pairs

Instructions

Print off the rhyming pairs sheet. Cut into 14 cards. Ask your child to choose a card. Read the word out loud together. Tell your child you are both going to try and find a word that rhymes. As your child picks up different cards read the words out loud so that your child can hear whether or not the word rhymes.

Continue until all the words are matched.

Does your child notice anything similar about how the words look in any of the rhyming pairs? Talk about what they can see.
